Next Steps: Priority Area Workgroups

Ursula Keller Weiss, PhD
Director

Division of Public Health Statistics and Performance Management
Florida Department of Health

Priority Area Workgroups

- Priority Area Workgroup (PAW) members identify, monitor and report on goals and objectives for the priority areas selected by the Steering Committee
- The PAWs serve as the operational component for engaging cross-sector collaborators in efforts to address the priorities, goals and objectives
- PAW members serve throughout the duration of the State Health Improvement Plan

Priority Area Workgroups

Member roles and responsibilities include:

- Developing goals and objectives for each priority area
- Creating implementation plans to drive action
- Monitoring and providing quarterly progress updates on activities
- Submitting an annual progress report with suggested revisions for review and approval by the Steering Committee
- Serving as champions for the State Health Improvement Plan by increasing awareness and engagement throughout their networks

Example: Goals and Objectives

Priority Area: Injury, Safety and Violence

Goal: Reduce unintentional injuries

Objectives:

- By December 31, 2026, reduce the number of falls-related hospitalizations from XX per 100,000 population to YY per 100,000 population.
- By December 31, 2026, reduce the number of drowning fatalities from XX to YY.

Example: Strategies and Activities

Strategies to Achieve Objectives:

- Increase availability of and participation in evidence-based falls prevention education programs.
- Increase the number of health care providers using the Center for Disease Control Prevention's STEADI (Stopping Elderly Accidents, Deaths and Injuries) resources to screen, assess, and intervene to reduce fall risk among their older patients.
